PROJECTS

Work Integrated Learning Laundry App and Website Project

- Created a laundry application and website with a user-friendly interface, streamlining laundry management by simplifying service requests, scheduling, and communication between users and providers. Overcame challenges through transparent communication and detailed requirement documentation, resulting in a successful, satisfaction-enhancing project outcome.

Disaster Alleviation Foundation Web Application

- Created a Disaster Alleviation Foundation Web application using Azure DevOps and Azure Cloud services, progressing through planning, prototype development. Git repository setup, feature additions, unit testing, automated deployments, and final touches, ensuring a comprehensive and efficient development life cycle.

IIE Rosebank College Projects

- Each semester, I managed a variety of school projects, mostly Portfolio of Evidence (PoE) assignments. Planning, development, and presentation phases were completed successfully, demonstrating a continual dedication to academic achievement. Only if you ask me can I give you the link. After I inform them, they will send you the link directly.
